ATP 30 Public Company Limited Review report and interim financial information For the three-month period ended 31 March 2020

### Independent Auditor's Report on Review of Interim Financial Information

To the Shareholders of ATP 30 Public Company Limited

I have reviewed the accompanying statement of financial position of ATP 30 Public Company Limited as at 31 March 2020, the related statements of comprehensive income, changes in shareholders' equity and cash flows for the three-month period then ended, as well as the condensed notes to the interim financial statements (collectively "interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*. My responsibility is to express a conclusion on this interim financial information based on my review.

#### Scope of Review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, *Review* of *Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Accounting and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

### Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*.

# ATP 30 Public Company Limited Notes to interim financial statements For the three-month period ended 31 March 2020

### 1. General information

### 1.1 Basis for the preparation of interim financial statements

These interim financial statements are prepared in accordance with Thai Accounting Standard No. 34 Interim Financial Reporting, with the Company choosing to present condensed interim financial statements. However, the Company has presented the statements of financial position, comprehensive income, changes in shareholders' equity, and cash flows in the same format as that used for the annual financial statements.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language financial statements.

### 1.2 New financial reporting standards that became effective in the current period

During the period, the Company has adopted the revised (revised 2019) and new financial reporting standards and interpretations which are effective for fiscal years beginning on or after 1 January 2020. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards. The adoption of these financial reporting standards does not have any significant impact on the Company's financial statements. However, the new standard involves changes to key principles, which are summarised below:

#### Financial reporting standards related to financial instruments

A set of TFRSs related to financial instruments consists of five accounting standards and interpretations, as follows:

Financial reporting standards:

TFRS 7	Financial Instruments: Disclosures
TFRS 9	Financial Instruments

Accounting standard:

TAS 32 Financial Instruments: Presentation

Financial Reporting Standard Interpretations:

TFRIC 16	Hedges of a Net Investment in a Foreign Operation
TFRIC 19	Extinguishing Financial Liabilities with Equity Instruments

These TFRSs related to financial instruments make stipulations relating to the classification of financial instruments and their measurement at fair value or amortised cost (taking into account the type of instrument, the characteristics of the contractual cash flows and the Company's business model), calculation of impairment using the expected credit loss method, and hedge accounting. These include stipulations regarding the presentation and disclosure of financial instruments.

The impact of the adoption of these standards on the Company's financial statements is recognition of credit losses. The Company recognises an allowance for expected credit losses on its financial assets, and it is no longer necessary for a credit-impaired event to have occurred. The Company applies the simplified approach to consider impairment of trade receivables.

The Company adopted these financial reporting standards which the cumulative effect is recognised as an adjustment to the retained earnings as at 1 January 2020, and the comparative information was not restated.

The cumulative effect of the change is described in Note 2 to the financial statements.

#### **TFRS 16 Leases**

TFRS 16 supersedes TAS 17 Leases together with related Interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases, and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is low value.

Accounting by lessors under TFRS 16 is substantially unchanged from TAS 17. Lessors will continue to classify leases as either operating or finance leases.

The Company adopted these financial reporting standards using the modified retrospective method of initial adoption of which the cumulative effect is recognised as an adjustment to the retained earnings as at 1 January 2020, and the comparative information was not restated.

The cumulative effect of the change is described in Note 2 to the financial statements.

#### 1.3 Significant accounting policies

The interim financial statements are prepared by using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2019 except the changes in accounting policies related to financial instruments and leases.

#### **1.3.1 Financial instruments**

#### Impairment of financial assets

The Company recognises an allowance for expected credit losses on its financial assets measured at amortised cost, without requiring a credit-impaired event to have occurred prior to the recognition. The Company accounts for changes in expected credit losses in stages, with differing methods of determining allowance for credit losses and the effective interest rate applied at each stage. An exception from this approach is that for trade receivables that do not contain a significant financing component, the Company applies a simplified approach to determine the lifetime expected credit losses.

#### 1.3.2 Leases

#### Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised through initial measurement, initial direct costs incurred, and lease payments made at or before the commencement date, less any lease incentives received.

Unless the Company is reasonably certain that it will obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis from the commencement date of the lease to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

#### Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of the lease payments to be made over the lease term, discounted by the interest rate implicit in the lease or the Company's incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification or reassessment.

#### Short-term leases and Leases of low-value assets

Payments under leases that, have a lease term of 12 months or less at the commencement date, or are leases of low-value assets, are recognized as expenses on a straight-line basis over the lease term.

## Cumulative effects of changes in accounting policies due to the adoption of new financial reporting standards

As described in Note 1.2 to the financial statements, during the current period, the Company has adopted TFRS related to financial instruments and TFRS 16. The cumulative effect of initially applying these standards is recognised as an adjustment to retained earnings as at 1 January 2020, and the comparative information was not restated.

The impacts on retained earnings as at 1 January 2020 from changes in accounting policies due to the adoption of these standards are presented as follows:

			(Unit: T	housand Baht)

#### 2.1 Financial instruments

The impact on retained earnings as at 1 January 2020 due to the initial adoption of TFRSs related to financial instruments caused by recognition of an allowance for expected credit losses.

The Company has measured financial assets and financial liabilities at amortised cost.

#### 2.2 Leases

Upon initial application of TFRS 16 the Company recognised lease liabilities previously classified as operating leases at the present value of the remaining lease payments, discounted using the Company's incremental borrowing rate at 1 January 2020. For leases previously classified as finance leases, the Company recognised the carrying amount of the right-of-use assets and lease liabilities based on the carrying amounts of the lease assets and lease liabilities immediately before the date of initial application of TFRS 16.

Balance as at 31 March 2020	9,070

#### 12. Income tax

Interim corporate income tax was calculated on profit before income tax for the period, using the estimated effective tax rate for the year.

Income tax expenses for the three-month periods ended 31 March 2020 and 2019 are made up as follows:

	(Unit: Thousand Baht)		
	2020	2019	
Current income tax:			
Interim corporate income tax charge	82	-	
Deferred tax:			
Relating to origination and reversal of temporary differences	548	2,103	
Tax expenses reported in the statement of			
comprehensive income	630	2,103	

#### 13. Earnings per share

Basic earnings per share is calculated by dividing profit for the period (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the period.

Diluted earnings per share is calculated by dividing profit for the period (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the period plus the weighted average number of ordinary shares which would need to be issued to convert all dilutive potential ordinary shares into ordinary shares. The calculation assumes that the conversion took place either at the beginning of the period.

The following table sets forth the computation of basic and diluted earnings per share:

	Weighted average					
	Profit for the three-month periods ended 31 March		number of ordinary shares			
					Earnings per share
